

# TRADITIONAL ESPRESSO MACHINES

M2S017 | M2CS019 | M2CS019-1

Astra's Traditional or Semi-automatic machines put the barista in control to craft the perfect cup. With a self-tamping, high-density group head, nickel plated copper boiler and temperature stabilizing thermocycling system, these machines offer unmatched reliability, quality and simplicity.

## KEY FEATURES

- Manual dosing
- Self-tamping group head, non tamping option available
- Manual steam controls, automated option available
- Manual hot water controls
- Easy plumbed water connection & drain hook-up
- Quiet internal motor with rotary-vane Procon pump
- Thermocycling system combined with a high-density group head achieves precise temperature control in high volume use
- Stainless steel & color panel options available

Astra's thermocycling system combined with high-density group head delivers superior temperature consistency.
