

Camshelving® Premium Series

Camshelving Flex Station Mobile Unit

4 Serving Levels

HEIGHT	DEPTH	LENGTH
1	1	1
67"	24"	48"

Unit includes:

2 mobile post kits (unassembled), 4 casters, 4 each traverse 2 packs, 36 each angled divider bars and 24 each shelf identification tags. Ships in 17 cartons.

Features & Benefits

- An easy to move, space saving, vertical storage/serving cart. Ideal for schools and colleges/universities for boosting a la carte/grab and go programs on campus. Perfect for healthcare tray lines, providing easy access to required service items such as non-perishable condiments, utensils, plastic dinnerware, napkins and/or menu holders.
- Flex Station Merchandiser is an optional graphic display set (includes two side panels and one header). It's easy to install, keep clean, and perfectly fits Camshelving Premium. Flex Station Merchandiser is durable and withstands many years of use with proper care and handling.
- Use in commercial and non-commercial kitchens for ingredient prep/storage/transport. Can also be used in warewashing areas to hold/transport clean cutlery and small wares.
- Posts and traverses have a steel core and smooth polypropylene exterior for superior strength and durability. Traverse dovetails are molded into posts. **NOTE:** Mobile units require Mobile Posts for assembly.
- Premium caster is made of highly durable, non-corrosive plastic with a 5" (12,7 cm) swivel, non-marking thermoplastic rubber wheel. Total locking brake locks both swivel motion and the wheel.
- Optional donut bumper offers added protection during transport and when maneuvering mobile units into place against walls or alongside other units for storage.
- Angled divider bars are strong and durable and easily snap onto traverses to hold food boxes or food pans. SlidingLids™ provide easy access to contents stored in food boxes. Use the CP814 Compact Camchiller® to hold fruits, vegetables and beverages cold for hours.
- Uniquely engineered Post Connectors offer exceptional cross stabilization. Weight bearing is uncompromised.
- Posts and traverses easily wipe clean. Traverses can be removed and adjusted at 4" (10,2 cm) increments.
- Maximum weight bearing per unit is 750 lbs. (340 kg).
- Requires some assembly with minimal parts. Use a rubber mallet only.
- Lifetime warranty against rust and corrosion (posts, traverses and shelf plates).
- Available in 1 color – Speckled Gray (480).
