Spectrum Food Safety

Facts

250

250 foodborne illnesses exist, caused by viruses, bacteria, parasites, toxins, metals and prions.

The Big 6

Acording to the FDA, there are over 40 different kinds of bacteria, viruses, parasites and mold that can cause illness. Of those, the Big 6 are highly contagious and cause severe illness.

- Shigella spp.
- Salmonella Typhi
- Nontyphoidal Salmonella (NTS)
- E. Coli
- Hepatitis A
- Norovirus

At risk populations

People who are especially vulnerable to foodborne illness include:

Young children

Food Allergies

Food allergies among children are on the rise.

In 2014

864

foodborne illness outbreaks

Resulting in...

-13,246-

-712-

hospitalizations

−**∠ I** − deaths

Words to Know

Allergen: a naturally occurring protein in a food or ingredient that some people are sensitive to

Allergic Reaction: when enough of an allergen is consumed by an allergen sensitive person, the immune system mistakenly considers it harmful and attacks the food protein, causing a reaction

Bacteria: single-celled, living microorganisms that can spoil food and cause foodborne illness

Blast Chill: equipment that blasts cold air across food at high speeds to remove heat, typically used to cool large amounts of food

Centers for Disease Control and Prevention (CDC): a federal agency that conducts and supports health promotion, prevention and preparedness activities in the United States with the goal of improving overall public health

Contamination: the presence of harmful substances in food. Contaminants fall into the following categories:

Biological: viruses, parasites, fungi and bacteria that threaten the safety of food. Biological contaminants are the greatest threat to food safety

Chemical: cleaners, sanitizers and polishes that enter food and make it unsafe

Physical: foreign object such as metal shavings, staples and bandages that enter food and make it unsafe

Critical Control Point (CCP): a point, step or procedure at which controls can be applied and a food safety hazard can be

be applied and a food safety hazard can be prevented, eliminated or reduced to acceptable (critical) levels

Date Markings: A labeling standard for food that is stored for longer than a 24 hour period. Date marking must indicate when the food must be sold, eaten or thrown out

FAT TOM: a mnemonic device used in the food service industry to describe the six favorable conditions required for the growth of foodborne pathogens. FAT TOM stands for: Food, acidity, time, temperature, oxygen, moisture

FDA: the U.S. Food and Drug Administration responsible for protecting and promoting public health through the regulation and supervision of food safety, along with other entities of public health

Flow of Food: the path that food travels through a foodservice establishment, typically starting with purchasing/receiving and ending with cleaning/disposal

Food Safety and Inspection Service (FSIS): the public health agency in the U.S. Department of Agriculture responsible for ensuring that the nation's commercial supply of meat, poultry and egg products is safe, wholesome, and correctly labeled and packaged

HACCP: a tool to assess hazards and establish control systems that focus on prevention rather than relying mainly on end-product testing

HACCP System: a scientific system that identifies specific hazards and measures for their control to ensure the safety of food

Immune System: the body's defense against infectious organisms and other invaders. Through a series of steps called the immune response, the immune system attacks organisms and substances that invade body systems and cause disease

NSF: an independent, internationally recognized, non-profit organization that certifies foodservice equipment and ensures it is designed and constructed in a way that promotes food safety

Occupational Safety and Health Administration (OSHA): a branch of the U.S. department of Labor responsible for establishing and enforcing safety and health standards in the workplace

TCS Food: food that requires time/ temperature control for safety to limit pathogen growth or toxin formation

Temperature Danger Zone: the range in which pathogenic bacteria can multiply rapidly in a food and possibly cause foodborne disease (40°F to 135°F)

Time-Temperature Abuse: any time TCS food is in the temperature danger zone (40°F to 135°F)

Virus: the smallest microbial food contaminant, which can be transferred from person to person, person to food or person to food-contact surface

Receive

The flow of food starts at the receiving dock. It is important to limit the amount of time that food is in an uncontrolled environment, which means a fast and efficient process needs to be in place. p.8

Cold Store

Food stored in a fridge should have ample air flow and should be checked regularly to make sure that safe temperatures are maintained. p.10

Reheat

Carlisle High Heat
Food Pans are ideal
for maintaining safe
food temperatures
in hot holding
applications and
they're the perfect
solution for reheating
food in a microwave
to boost it back up
to a safe holding
temperature. p.16

The flow of food is not a simple line. It's more complex than that. It's not a set of orders, it's a conversation. Every kitchen is different and every food item has its own unique requirements for safe handling. Here at Carlisle, we recognize the complexities of the food handling process and appreciate a kitchen's unique circumstances. The following products are smart solutions, created by experts who understand food safety.

Sort

Depending on the type of delivery, food will need to be sorted so that it can be handled and stored separately. Allergen Control food items also need to be identified during this process. p.9

The Flow of Food

Store

When it comes to storage, the more organization, the better. Carlisle offers color-coded food boxes with areas for date markings to aid in the First In First Out system. p.10

Prepare

Carlisle has products designed to keep food safe during the prep phase of food handling, p.12

Serve

One of the final steps in the flow of food is when the food is presented to the customer. Trays and meal transport products ensure that food is delivered in an efficient and orderly manner. p.17

Clean

an

Maintaining a clean facility is one of the most important aspects of food safety. Having the right tool for the job makes cleaning easier, which results in a safer and more efficient kitchen. p.18

Allergen Control

In a kitchen, the most dangerous allergen is the one that isn't identified

Use Carlisle Allergen Control
Products to identify allergen
sensitive food and equipment,
employees will know how to
handle allergen sensitive orders
and customers will know
they're in good hands

Capacity indicators allow measuring, prepping and portioning in a single container for added versatility, efficiency and inventory control

StorPlus 2 qt Square Container

Bold purple markings make these measuring cups easily identifiable as allergen control products

Commercial Measuring Cup

Purple Bronco Waste
Containers are NSF Listed
for food contact and
cleanability—perfect for
storing allergen sensitive
foods

Symptoms of an Allergic Reaction

Nausea

Wheezing /
Shortness of
Breath

Hives / Itchy Rashes

Swelling of Face, Eyes, Hands or Feet

Vomiting / Diarrhea

Abdominal Pain

The Big 8

is a group of the eight major allergenic foods. These foods account for approximately 90% of all food allergies in the United States

Purple Color-Coded Cutting Boards fit into HACCP guidelines by segregating allergen sensitive food

Carlisle offers purple
Measure Misers in a variety
of sizes with the capacity
molded into the handle

Purple tote boxes are
perfect for ensuring that
cross-contamination doesn't
happen during the cleaning
process of handling
allergen sensitive
products

Receive

When receiving food, organization is the best way to ensure safety

Carts keep food at least 6 inches off the ground to meet HAACP guidelines

Color-Coded Tote Boxes

Available in 8 different colors for HACCP zone use, NSF Listed for food contact and cleanability

Fold 'N Go® Carts

These carts fold up to a compact size so they're ready when you need them and out of the way when you don't

Stainless Steel Carts

Durable, heavy gauge in 300 lb, 500 lb and 700 lb capacities

Bin Top Utility Carts

Raised edges prevent items from falling off during transport—which saves operators money in food waste costs

Black Fold 'N Go Cart

3 Shelf Steel Utility Cart

Large Bin Top Utility Cart

Go to page 20 for full listing of Carts and Receive products

Sort

Sort food deliveries at the dock to eliminate cross-contamination

Cardboard boxes can contain:

- Bacteria
- Mold
- Staples

Food deliveries should be transferred to plastic food boxes as soon as possible

Checklist

— for

Receiving Food

- Food is from an approved supplier
- The food has been stored properly in transit
- There are no signs of contamination or damaged packaging
- The food is the proper temperature
- The food is honestly presented

Receiving and sorting food deliveries is the first opportunity for a foodservice operation to stop deadly threats at the door

Carlisle StorPlus™ Food boxes

- Color-coded and translucent for easy identification of foods
- Sort deliveries into color-coded food boxes to avoid cross-contamination

StorPlus Color-Coded Food Boxes

Critical

Keep food organized, help prevent cross-contamination and extend the life of food

Color-Coded Bronco™ Waste Containers

NSF Std 2 Listed for food contacta great solution for a variety of food handling uses

Store

StorPlus Squares and Rounds are designed to keep food safe and save money by extending the life of food

These containers are made of clear polycarbonate for easily identifying contents and providing superior strength to stand up to heavy use Clear Date Indicator

Stacking Lugs

Capacity Indicator

Spoonable Bottom

- Tight, double-sealing lids protect against spills and extend freshness
- Printed capacity indicators are listed in both quarts and liters for accurate inventory control
- All sizes have wide, easy-grip handles with drain holes for quick drying and NSF compliance

Go to page 21 for full listing of Storage products

Prepare

Products made to prevent Cross-Contamination

Sparta® Meteor® Pastry Brushes

Handle hook prevents bristles from

coming in contact with contaminants

Thoroughly cleaning food and using color-coded prep tools are the best ways to prevent dangerous cross-contamination

Purple Measuring Cup

Carlisle has tools to identify allergens during the prep phase of the flow of food: to help combat cross-contamination

Color-Coded Cutting Boards & Brushes

Color-Coded Cutting Boards in be used in the

can be used in the same color coding system used for food storage

Sparta® Meteor® Pastry Brushes

Cutting Board Refinisher

Cutting Board Refinisher

Extend the life of a cutting board and reduce opportunities for bacteria to harbor in cut grooves

Stiffer bristles clean bacteria from under fingernails. Longer bristles clean the top and bottom of fingers

Vegetable Brush

Go to page 22 for full listing of Prep products

Sparta® Food Prep Brushes Stiff polyester bristles for aggressive cleaning

Hold

Innovative food holding solutions to keep food safe

Fit more food in a prep table with a 6" deep 1/9 size food pan

6" deep 1/9 size has a similar capacity to a 4" deep 1/6 size pan with a 35% smaller footprint

StorPlus[™]

Polycarbonate Food Pan

EZ Access™ lids keep physical contaminants out of food

Notched lid for easy opening

Lid sits flush with side of food pan for efficient and easy access

Lid won't pop off when flipped up

Coldmaster® Product

Eliminate messy, unsanitary ice baths with Coldmaster products. See pg 25 for full listing of Coldmaster products

Go to page 22 for full listing of Hold products

Cook

Products designed to ensure food safety

Color-Coded Dishers

Dishers

Portion control helps manage inventory and consistent

keeps food

Dura-Kool Tongs

Dura-Kool™ Tongs

- Can withstand temperatures up to 195°F
- Spring action hinge won't break, so there are no moving parts that could end up as physical contaminants in food

High Heat Serving Spoons & Turner

High Heat Serving Spoons & Turner

- Withstands temperatures from -40° to 375°F without melting or transferring heat
- Helps prevent scratching on coated surfaces

High Heat Spatulas & Scrapers

- The sharp edge and deep bowl of the scrapers provide optimal efficiency and reduce waste
- The red handled high heat versions are rated to 600°F and feature cool-touch handles

Coldmaster® CoolCheck™ Pans Ideal for holding batter and breading at food safe temperatures

for 6-8 hours (depending on ambient room temperature)

Cool

The Coldmaster® difference

Non-Toxic Gel

Coldmaster products use non-toxic gel that freezes to provide lasting cold throughout its use

Encased in a Bag

The non-toxic gel is sealed in a bag, providing an additional safety barrier against spills in case of any breakage

Additional Insulation

More insulation is used around the gel bag to provide maximum cold retention and reduce condensation

High Impact ABS Plastic

The cold-holding technology is encased in high impact plastic so it stands up to years of tough use Cool TCS (Time & Temperature Control) food from 135°F to 41°F or Lower within 6 hours.

FIRST 2 HOURS: COOL FOOD FROM 135°F TO 70°F. Next 4 Hours: Cool food from 70°F to 41°F or lower.

CoolCheck

Color changing technology shows when unit is cold

Coldmaster CoolCheck

0°F

Some bacteria survive but no growth occurs.

40°F - 140°F

Danger Zone Rapid growth of bacteria.

140°F - 212°F

Low cooking/holding temperatures prevent bacteria growth but allows some bacteria to live.

212°F - 240°F

High temperatures destroy bacteria. It takes less time to kill bacteria as temperature rises.

Go to page 25 for full listing of Cool products

Reheat

These pans can take the heat that bacteria can't

StorPlus[™]

Material Temperature Ranges

High Heat Food Pans

High Heat Food Pans

- Temperature range of -40°F to 375°F
- Microwave safe
- Great for holding ovens

Stainless Steel Food Pans Can go from freezer to oven, making them ideal for cookchill operations

Stainless Steel Food Pan and Lid

High Heat Food Pans are the ultimate solution for...

Microwave cooking and reheating

Steam Tables

Go to page 24 for full listing of Reheat products

Serve

Ensure that food is not only made safely, but served safely as well

Ice Only Container

The words are printed right on the container so staff knows this container is to be used exclusively for ice

CCP Critical Control Point

Ice is an often overlooked food item that must be handled in a sanitary manner to ensure the safety of diners

Use a CaterCooler to keep the contents of a Cateraide cold

Cateraide™ IT400

Commercial foam insulation holds food below ServSafe standard of 41°F during transport

Coldmaster Ice Cream Server

Holds a standard 3 gallon ice cream tub for 6 to 8 hours

Measure Misers

Measure Misers®

Break-resistant acetal can withstand temperatures up to 212°F

Go to page 26 for full listing of Serve products

Use purple Measure Misers to identify allergens while food is being plated

Clean

Effective cleaning is the foundation of all food safety systems

Fryer Brushes Stiff, high heat bristles withstand

temperatures up to 500°F

High Heat

Color-Coded Cleaning Tools

- Color-coded cleaning tools are part of an effective HACCP plan
- Color-coded tools help employees to segregate brushes by work zones to help prevent cross-contamination

Suggested Uses for Different Colors:

Front of House

Bathroom

Back of House

Broiler Master Brush

Stainless steel bristles and scraper make removing carbon deposits, rust and burned-on food easy

Sparta® Scratch Brush and Scraper

Scratch Brush and Scraper

Compact profile for heavy scraping and cleaning in tight, narrow spaces to remove grease and deposits

Floor Drain Brush

- Special female threaded handle accepts floor drain brushes only to prevent cross-contamination
- "Use for floor drain only" is prominently imprinted in English and Spanish on the plastic drain handle to prevent contact with food and serving utensils

Sparta Coffee Service Brushes

Coffee Service Brushes

Specifically designed to effectively clean coffee decanters, pots, urns and dispensers

Clean

Microfiber Cloths

Available in 5 HACCP friendly colors

Use Red Steri-Pails for sanitizing solutions and Green Suds Pails for cleaning solutions

Smaller diameter handles and softer bristles for delicate cleaning of jars, bottles, glasses and growlers with smaller openings

Microfiber Cloths

- Remove any food bits from the surface
- Wash and rinse the surface

Surface Cleaning

- Sanitize the surface
- 4 Allow the surface to air dry

Bottle Brushes

Square Steri-Pail & Suds-Pails

Triple Glass Washer Brush

Heavy duty Polyester bristles with densely filled dome top hold up to extreme use and white plastic stems help prevent glasses from being chipped or broken

Lettuce, Fry & Onion Cutter Brushes

Lettuce, Fry & Onion Cutter Brushes Designed with stiff, long bristles for reaching into the crevices of stainless

steel vegetable cutters
