

# **Instruction Manual**

# Lil' Maxx

Model No. 2389 and 2389EX

10700 Medallion Drive, Cincinnati, Ohio 45241-4807 USA

# SAFETY PRECAUTIONS

#### **▲ DANGER**

Machine must be properly grounded to prevent electrical shock to personnel. Failure to do so could result in serious injury, or death.

DO NOT immerse any part of this equipment in water.

DO NOT use excessive water when cleaning.

Keep cord and plug off the ground and away from moisture.

Always unplug the equipment before cleaning or servicing.

Make sure all machine switches are in the OFF position before plugging the equipment into the receptacle.

008\_051514

#### **▲ DANGER**

Improper installation, adjustment, alteration, service, or maintenance can cause property damage, injury, or death. Any alterations to this equipment will void the warranty and may cause a dangerous condition. This appliance is not intended to be operated by means of an external timer or separate remote-control system. NEVER make alterations to this equipment. Read the Installation, Operating, and Maintenance Instructions thoroughly before installing, servicing, or operating this equipment.

014 020410

#### ♠ WARNING

To avoid burns, DO NOT touch the kettle or any heated surface. DO NOT place or leave objects in contact with heated surfaces.

013 092414

### ♠ WARNING

ALWAYS wear safety glasses when servicing this equipment.

010\_010914

### **MARNING**

No user serviceable parts inside. Refer servicing to qualified service personnel.

011\_051514

### **⚠ WARNING**

Read and understand operator's manual and all other safety instructions before using this equipment. To order copies of the operator's manual go to gmpopcorn.com or write to Gold Medal Products Co., 10700 Medallion Drive, Cincinnati, OH 45241 USA 1-(800)-543-0862

022 060215

# **SAFETY PRECAUTIONS (continued)**

#### **⚠ WARNING**

DO NOT allow direct contact of this equipment by the public when used in food service locations. Only personnel trained and experienced in the equipment operation may operate this equipment.

Carefully read all instructions before operation.

012 010914

## **MARNING**

This machine is NOT to be operated by minors.

007 010914

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

**Note:** Improvements are always being made to Gold Medal's equipment. This information may not be the latest available for your purposes. It is critical that you call Gold Medal's Technical Service Department at 1-800-543-0862 for any questions about your machine operations, replacement parts, or any service questions. (Gold Medal Products Co. does not assume any liability for injury due to careless handling and/or reckless operation of this equipment.)

gmpopcorn.com

# **INSTALLATION INSTRUCTIONS**

## Inspection of Shipment

After unpacking, check thoroughly for any damage which may have occurred in transit. Claims should be filed immediately with the transportation company. The warranty does not cover damage that occurs in transit, or damage caused by abuse, or consequential damage due to the operation of this machine, since it is beyond our control (reference warranty in back of manual).

#### **Manual**

Read and understand the operator's manual and all other safety instructions before using this equipment. To order copies of the operator's manual go to gmpopcorn.com or write to Gold Medal Products Co., 10700 Medallion Drive, Cincinnati, OH 45241 USA 1-(800)-543-0862.

## **Model Description**

2389: Lil' Maxx 8 oz. Popper

2389EX: Export Lil' Maxx 8 oz. Popper

This appliance is intended to be used in household and similar applications such as staff kitchen areas in shops, offices and other working environments; farm houses; by clients in hotels, motels, bed and breakfast or other residential type environments.

#### Items Included with this Unit

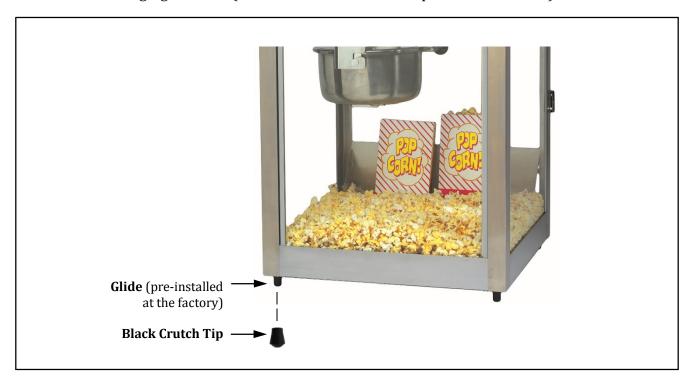

## Setup

This unit has been tested at the factory.

- 1. Remove all packaging and tape prior to operation.
- 2. Place the unit on a sturdy, level base.
- 3. The popper unit has 4 glide feet preinstalled at the factory (see image below). Install a rubber Crutch Tip on each of the 4 glide feet. Firmly push the crutch tip over the glide until it covers the glide entirely.
- 4. The door knobs are shipped facing the inside of the machine. Readjust the knobs to face the outside of the machine.
- 5. Carefully install the light bulb (do not over-tighten) into the lamp holder located inside the cabinet interior. Make sure the unit is OFF and unplugged before installing or changing the bulb (reference the Electrical Requirements section).

## **Electrical Requirements**

The following power supply must be provided:

**2389:** 120 V~, 1250 W, 60 Hz **2389EX:** 230 V~, 1250 W, 50 Hz

## **M** DANGER

Machine must be properly grounded to prevent electrical shock to personnel. Failure to do so could result in serious injury, or death.

DO NOT immerse any part of this equipment in water.

DO NOT use excessive water when cleaning.

Keep cord and plug off the ground and away from moisture.

Always unplug the equipment before cleaning or servicing.

Make sure all machine switches are in the OFF position before plugging the equipment into the receptacle.

008 051514

Your electrician must furnish sufficient power for proper machine operation. We recommend this equipment be on a dedicated and protected circuit. Failure to wire properly will void the warranty and may result in damage to the machine. It is Gold Medal Products Co.'s recommendation that this machine be plugged directly into a wall outlet. The use of extension cords is not recommended due to safety concerns, and may cause sacrificed and/or reduced performance. Make sure cord is located to prevent a trip hazard or unit upset.

## **Before You Plug In Machine**

- 1. Make sure all machine switches are in the OFF position before plugging the equipment into the receptacle.
- 2. Make sure the wall outlet can accept the grounded plugs (where applicable) on the power supply cord.
- 3. The wall outlet must have the proper polarity. If in doubt, have a competent electrician inspect the outlet and correct if necessary.
- 4. DO NOT use a grounded to un-grounded receptacle adapter (where applicable).
- 5. Install the unit in a level position.

### **↑** CAUTION

If the supply cord is damaged, it must be replaced by Gold Medal Products Co., its service agent or similarly qualified persons in order to avoid a hazard.

039\_080614

# **OPERATING INSTRUCTIONS**

## **Controls and Their Functions**

#### **KETTLE HEAT SWITCH**

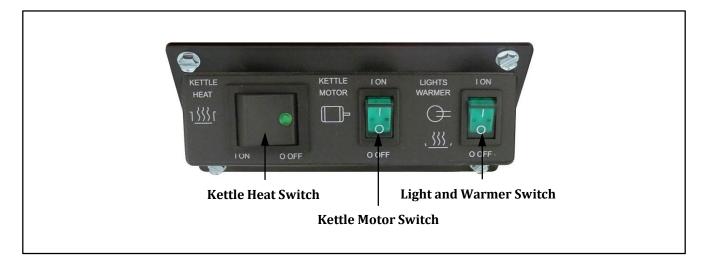

Two position, ON/OFF lighted rocker switch - supplies power to the heating element in the kettle. The green switch light ON indicates there is power to the kettle heating element.

#### **KETTLE MOTOR SWITCH**

Two position, ON/OFF lighted rocker switch - supplies power to the kettle agitator motor. The Kettle Motor Switch MUST be ON at all times when there is popcorn (popped or unpopped) in the kettle.

#### LIGHTS/WARMER SWITCH

Two position, ON/OFF lighted rocker switch - supplies power to the interior cabinet light and corn pan heat element.

# **Popping Corn**

This section describes instructions for popping Standard (salted popcorn).

## **Amount of Popcorn and Oil**

Your new popper is equipped with a corn, salt, and oil measure. We recommend flavored and colored coconut oil. Popcorn popped in coconut oil stays fresh longer and does not leave black deposits in your kettle like other oils. Use only top quality, fresh popcorn from reputable suppliers.

#### **Ingredient amounts for popping Standard Popcorn:**

Kettle Size	Popcorn Charge	Oil Charge	Flavacol (Salt)
8 oz.	8 oz. (237 ml)	1/3 cup (79 ml)	3/4 Tblsp. (10cc)

For best results use Mega-Pop® 8 oz. premeasured pouches (Item# 2838).

## Popping Standard (Salted) Popcorn

- 1. Turn the Lights/Warmer, Kettle Heat and Kettle Motor Switches ON.
- 2. To determine when the kettle is ready to pop corn (about 4 minutes), test pop three kernels of corn and one ounce (30 ml) of popping oil. When the kernels pop, the kettle is ready for use.
- 3. Lift the kettle lid and load the Mega-Pop® premeasured popcorn and oil pouch into kettle, or pour in the popcorn and Flavacol, then add oil in the premeasured amounts specified above. Close lid.
- 4. When the corn has finished popping, gently dump the popcorn.
- 5. On the final kettle of corn, turn the Kettle Heat Switch OFF just as the lids are forced open by the popping corn. This procedure saves electricity, since the kettle has plenty of heat, and helps eliminate smoke/odor from any oil residue that remains after popping has stopped.
- 6. When finished popping, make sure KETTLE HEAT and KETTLE MOTOR switches are turned OFF.

#### NEVER LEAVE THE HEAT ON WHEN YOU ARE NOT POPPING CORN!

# **Care and Cleaning**

#### **▲ DANGER**

Machine must be properly grounded to prevent electrical shock to personnel. **DO NOT immerse in water.** 

Always unplug the equipment before cleaning or servicing.

025 020314

#### ♠ WARNING

To avoid serious burns, DO NOT touch the kettle while it is hot!

028 082715

Good sanitation practice demands that all food preparation equipment be cleaned regularly (only use non-toxic, food grade cleaners). A clean looking, well-kept machine is one of the best ways of advertising your product.

**Note:** It is extremely important to follow all of the cleaning procedures, otherwise parts damage and equipment failure will result. The warranty does not cover parts that are damaged due to improper cleaning.

## **Daily Kettle Cleaning Instructions**

**CAUTION:** A hot kettle will cause burns if you touch it with your hand. Allow kettle to cool at least 1 hour before attempting to clean. **DO NOT** use ice or water to cool down a hot kettle! Severe kettle damage will result!

- 1. When cool, wipe the **outside** of the kettle with a clean, soft cloth. **DO NOT** use oven cleaners or abrasive materials as they will damage the kettle.
- 2. Every night, mix Gold Medal's Heat'n Kleen solution (Item No. 2095), 2 tablespoons per gallon of water. It is not necessary to use the entire gallon at once; only use enough to fill the kettle 1/2 inch deep.
- 3. Turn the kettle heat ON. When the water starts to boil, turn the kettle heat OFF.
- 4. Allow to cool for at least 1 hour, then dump the solution into a bucket and wipe the inside of the kettle with a clean cloth. Make sure all of the solution goes into the bucket; do not spill any in the interior of the machine.
  - For an extra dirty kettle, the process may be repeated; or, after turning the kettle heat OFF, allow solution to sit in the kettle overnight. The next morning, dump the solution into a bucket and wipe the inside of the kettle with a clean cloth.
- 5. With the unit OFF and unplugged, wipe the kettle lead cord with a clean SLIGHTLY damp cloth. **DO NOT get moisture into the kettle lead-in cord, severe damage will result.**

## **Daily Unit Cleaning Instructions**

- 1. With the machine OFF, unplug the unit and allow it to cool before attempting to clean.
- 2. Make sure to clean all pans/accessories in order to sanitize them before each use.
- 3. Take a clean, SLIGHTLY damp cloth and wipe excess grease from the glass and cabinet.
- 4. Wipe the stainless steel parts with a clean cloth and cleaner designed for stainless steel, such as Gold Medal Watchdog Stainless Cleaner (Item No. 2088).
  - **DO NOT** use oven cleaners or abrasive materials as they will damage parts of the machine.
- 5. Clean the glass panels with glass cleaner. Gold Medal Watchdog Glass Cleaner (Item No. 2588) is recommended.
  - Ammonia cleaners will damage the plastic doors. Use only non-ammonia cleaners, such as Gold Medal Watchdog Glass Cleaner (Item No. 2588).

## **Filter Cleaning Instructions**

Your popcorn machine is equipped with an efficient and durable filtration system. The filter should be cleaned every 1-2 weeks to maintain maximum efficiency.

Follow the steps below for proper filter cleaning:

#### Step 1:

The filter is located on the inside of the popcorn machine directly above the popping kettle.

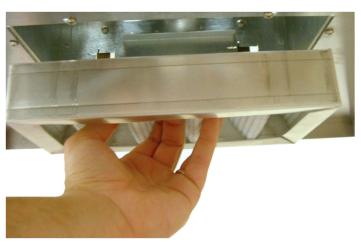

#### Step 2:

Remove the filter by gripping the filter itself and pulling straight down.

#### Step 3:

Clean the filter in warm soapy water and allow to dry overnight. Replace the filter by putting it into the slot and pushing upward. Make sure the filter frame is flush with the roof of the machine (as shown above).

# **Troubleshooting**

Issue	Possible Cause	Solution
Kettle Does Not Heat	A. Power to Unit	A. Make sure the lead-in cord is plugged in.
	B. Power to the Kettle	B. Make sure the kettle lead-in cord is plugged in.
	C. Kettle Heat Switch	C. Have a qualified service person check the voltage to and from the Kettle Heat switch; and if the switch is defective replace it.
	D. Heating Element	D. Heating element in the kettle may be burned out. Check with a qualified service person for inspection/repair.
Long Popping Cycles (Longer than 4 minutes for Salt Popcorn)	A. Low Voltage	A. If the machine is operated on low voltage, this could cause the kettle not to reach the proper operating temperature. Voltage with kettle turned on, should be at least 112 V (215 V for Export Models). Check with a qualified electrician.
		The use of extension cords is not recommended due to safety concerns, and may cause sacrificed and/or reduced performance. If the use of an extension cord cannot be avoided then be sure it is no longer than 10 to 12 ft., and is at least 14 AWG (1.5mm² wire for Export Models).
	B. Inadequate Supply Lines	B. Inadequately sized electrical supply lines, in addition to being a fire hazard, would also prevent the kettle from reaching the proper operating temperature. Check with a qualified electrician.
	C. Inferior Corn	C. Inferior quality corn would result in longer popping cycles. Use only top quality hybrid popcorn from reputable suppliers. Even then, if you let your corn pick up moisture or dry out, your popping cycles will be slow.
Kettle Agitator Shaft not Rotating	A. Kettle Motor Switch	A. If the kettle agitator shaft is not rotating, <b>DO NOT</b> pop corn. Make sure the Kettle Motor Switch is ON. If the switch is ON, and the shaft is not rotating, the switch or motor may be faulty, contact qualified service personnel for inspection/repair.
	B. Kettle Agitator Shaft/Stir Blade not rotating. (Unit must be OFF, unplugged and cool prior to checking or adjusting the agitator assembly.)	B. If the kettle agitator shaft is not rotating, <b>DO NOT</b> pop corn. Check the clearance between the kettle bottom and the stir blade; it should be 1/32" (use a dime). To adjust, loosen the set screw in the collars above and below the crossbar and adjust the agitator shaft as necessary. Then re-tighten the set screws in the collars.

# MAINTENANCE INSTRUCTIONS

#### **▲ DANGER**

Machine must be properly grounded to prevent electrical shock to personnel. Failure to do so could result in serious injury, or death.

DO NOT immerse any part of this equipment in water.

DO NOT use excessive water when cleaning.

Keep cord and plug off the ground and away from moisture.

Always unplug the equipment before cleaning or servicing.

Make sure all machine switches are in the OFF position before plugging the equipment into the receptacle.

008 051514

#### **▲ DANGER**

Improper installation, adjustment, alteration, service, or maintenance can cause property damage, injury, or death. Any alterations to this equipment will void the warranty and may cause a dangerous condition. This appliance is not intended to be operated by means of an external timer or separate remote-control system. NEVER make alterations to this equipment. Read the Installation, Operating, and Maintenance Instructions thoroughly before installing, servicing, or operating this equipment.

014 020416

#### **↑** WARNING

No user serviceable parts inside. Refer servicing to qualified service personnel.

011 051514

## **↑** CAUTION

THE FOLLOWING SECTIONS OF THIS MANUAL ARE INTENDED ONLY FOR QUALIFIED SERVICE PERSONNEL WHO ARE FAMILIAR WITH ELECTRICAL EQUIPMENT. THESE ARE NOT INTENDED FOR THE OPERATOR.

# **ORDERING SPARE PARTS**

- 1. Identify the needed part by checking it against the photos, illustrations, and/or parts list.
- 2. Use only approved replacement parts when servicing this unit.
- 3. When ordering, please include part number, part name, and quantity needed.
- 4. Please include your model number, serial number, and date of manufacture (located on the machine nameplate/data plate) with your order.
- 5. Address all parts orders to:

Parts Department Gold Medal Products Co. 10700 Medallion Drive Cincinnati, Ohio 45241-4807

Or, place orders by phone or online:

Phone: (800) 543-0862

## **Replacing Broken Glass**

Broken glass panels can be easily replaced. Gold Medal Products Co. does not ship glass. It can be obtained from a local glass shop and always purchase tempered glass.

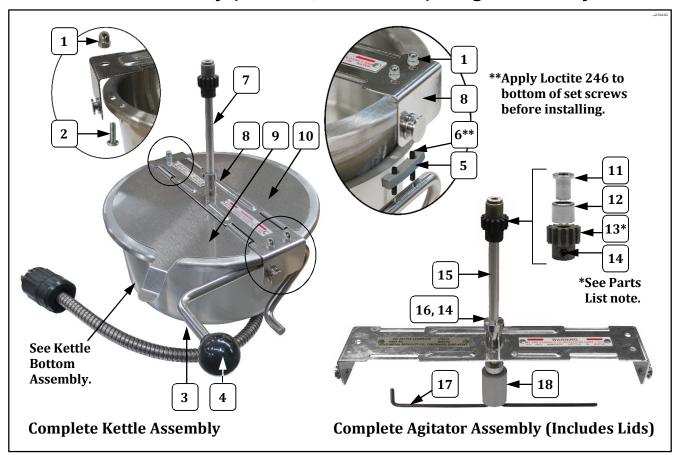

- 1. Remove all loose pieces of glass.
- 2. Remove all rigid glass channels from around the glass to be replaced. Set it aside as it must be reused.
- 3. Carefully remove the rest of the broken glass.
- 4. Apply decals (if desired) to the new glass panel.
- 5. Slide rigid glass channels over the exposed sides and bottom of new glass panel.
- 6. Fasten new glass panel in machine with the existing glass strips. (On some units, the front and side glass slide under top and is then lowered into the bottom channel.)

#### **GLASS DIMENSIONS (Width X Height X Thickness)**

**Front/Side Glass:** 16 7/8" X 21 1/4" X 1/8" (3 Pieces)

## Model No. 2389

## Model No. 2389EX

# WARRANTY

Gold Medal Products Co. warrants to the original purchaser each item of its manufacture to be free of defects in workmanship and material under normal use and service. Gold Medal Products Co.'s obligation under this warranty is limited solely to repairing or replacing parts, f.o.b. Cincinnati, Ohio, which in its judgment are defective in workmanship or material and which are returned, freight prepaid, to its Cincinnati, Ohio factory or other designated point. Except for "Perishable Parts" on specific machines, the above warranty applies for a period of two (2) years from the date of original sale to the original purchaser of equipment when recommended operating instructions and maintenance procedures have been followed. These are packed with the machine. Parts warranty is two (2) years, labor is six (6) months.

THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES EXPRESSED OR IMPLIED, AND OF ALL OTHER OBLIGATIONS OR LIABILITIES ON OUR PART, INCLUDING THE IMPLIED WARRANTY OF MERCHANTABILITY. THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE HEREOF. In no event shall Gold Medal Products Co. be liable for special, incidental or consequential damages. No claim under this warranty will be honored if the equipment covered has been misused, neglected, damaged in transit, or has been tampered with or changed in any way. No claim under this warranty shall be honored in the event that components in the unit at the time of the claim were not supplied or approved by Gold Medal Products Co. This warranty is effective only when electrical items have been properly attached to city utility lines only at proper voltages. This warranty is not transferable without the written consent of Gold Medal Products Co.

The term "Original Purchaser" as used in this warranty shall be deemed to mean that person, firm, association, or corporation who was billed by the GOLD MEDAL PRODUCTS CO., or their authorized distributor for the equipment.

THIS WARRANTY HAS NO EFFECT AND IS VOID UNLESS THE ORIGINAL PURCHASER FIRST CALLS GOLD MEDAL PRODUCTS CO. AT 1-800-543-0862 TO DISCUSS WITH OUR SERVICE REPRESENTATIVE THE EQUIPMENT PROBLEM, AND, IF NECESSARY, FOR INSTRUCTIONS CONCERNING THE REPAIR OR REPLACEMENT OF PARTS.

NOTE: This equipment is manufactured and sold for commercial use only.
