SERVICEABILITY

■ Every operator/supervisor screen is a web page that can be accessed remotely via web browser

■ Diagnostics information can be retrieved; scale configuration and PLU database can be verified or modified

■ Monitor real-time use of the scale

■ System firmware can be upgraded via a USB drive or network

■ Automatically send emails when the system is out of labels or when the cassette/print head is disengaged for a given period of time

■ Onscreen help questions and answers

■ EPCP-5i uses HTe for remote scale access
