

A Few Good Reasons to Buy Ice-O-Matic

Creating American Jobs

Ice-O-Matic is a U.S.-based company located in Denver, Colorado. For over sixty years our ice machines have been manufactured in the USA to the highest standards. We are proud of our commitment to quality and the workers that make it happen.

ENERGY STAR®

Ice-O-Matic partners with ENERGY STAR to ensure you receive the most efficient ice machine for your investment dollar. Ice-O-Matic is committed to continually improving the energy efficiency of our ice machines. We are uncompromising in our pursuit of both energy efficiency and productivity and are continually looking for ways to improve both, thereby delivering the best value in energy efficient ice machines.

Produced Sales Videos.

Plant-A-Tree Program

To offset the carbon footprint of our factory in Denver, we not only use recycled materials in our packaging and manufacturing, but also recycle our industrial and office waste products.

We plant a tree for every ice machine we sell, to contribute to the reforestation throughout the world. Ice-O-Matic has partnered with American Forests' Global ReLeaf education and action program, which helps individuals, organizations, agencies, and corporations improve the local and global environment by planting and caring for trees. To learn more about its efforts, visit americanforests.org/global_releaf/.

Features

Stainless Steel Chassis

Rust-resistant Ice-O-Matic ice makers are constructed from stainless steel on the inside where it counts most, and a combination of stainless steel and industrial-grade scratch resistant plastic on the outside.

Harvest Assist

Ice-O-Matic was the first to integrate a harvest assist technology, which ensures consistent, reliable performance year after year. Improves energy efficiency and ice cube production by assisting ice off of the evaporator freezing surface and shortening the harvest cycle time.

Evaporator Design

We've refined the art of manufacturing evaporators, which is one of the key components to Ice-O-Matic's reliability. The electroless nickel process resists the damaging effects of water and ice over an extended period of time.

Top Air Discharge

With Ice-O-Matic's exclusive Top-Air Discharge available on several modular cubers, there is no side clearance required. The hot discharge air is directed to the ceiling and away from the working environment. Best of all, this option is offered at no additional charge.

AgION® Antimicrobial Compound

All-naturally occurring antimicrobial compound used in materials to allow for greater food safety when ice is being made. AgION—Nature's antimicrobial.

7-Year Warranty

Utilize Ice-O-Matic water filters with a cube ice machine, change them every 6 months, and the evaporator warranty is extended to 7 years—the only 7-year warranty in the industry.

Filter-Free Air

Ice-O-Matic's exclusive condenser design does not require a filter. There are no filters to get dirty and restrict air flow, or to change.

A decision as simple to make as ice

At Ice-O-Matic, we believe that making ice is easy, and choosing an ice machine should be easy too. Whatever your needs, Ice-O-Matic offers a full line of ice-making equipment and accessories that provide reliable performance and carefree operation within a practical design.

Reliable Performance

Built strong for long-lasting durability, all Ice-O-Matic ICE Series models are made of rust-resistant stainless steel, fingerprint-proof plastic trim, and premium components. Our industry-leading features give you one of the most reliable machines available in the market today.

Carefree Operation

We believe an ice machine should be your silent partner, working every day to provide you with high volumes of crystal-clear, pure ice without a lot of maintenance.

Practical Design

What makes an Ice-O-Matic machine better? Our customers will tell you that it's the best value on the market, but we think it's our practical, no-nonsense design that makes a difference to you every day.

Sizing Your Ice-O-Matic Ice Maker

- Does the existing ice maker meet peak usage during the hottest part of the year?
- What are the various locations or stations in the establishment that will need ice? Will they be serviced from one or multiple ice makers?
- Planning for future growth? If not, consider building in 20% additional capacity on new installations.

FOODSERVICE	APPROXIMATE ICE USAGE PER DAY
Restaurant	1.5 lbs. (0.7 kg) per person
Cocktail	3 lbs. (1.4 kg) per person/seat
Salad Bar	40 lbs. per cubic foot (641 kg per cubic metre)
Quick Service	5 oz. per 7- to 10-oz. drink / 8 oz. per 12- to 16-oz. drink / 12 oz. per 18- to 24-oz. drink 148 ml per 207-296 ml drink / 237 ml per 355-473 ml drink / 355 ml per 532-710 ml drink
LODGING	APPROXIMATE ICE USAGE PER DAY
Guest Ice	5 lbs. (2.3 kg) per room
Restaurant	1.5 lbs. (0.7 kg) per person
Cocktail	3 lbs. (1.4 kg) per person/seat
Catering	1 lb. (0.45 kg) per person
HEALTHCARE	APPROXIMATE ICE USAGE PER DAY
Patient Ice	10 lbs. (4.5 kg) per bed
Cafeteria	1 lb. (0.45 kg) per person
CONVENIENCE STORE	APPROXIMATE ICE USAGE PER DAY
Beverage	6 oz. per 12-oz. drink / 10 oz. per 20-oz. drink / 16 oz. per 32-oz. drink 177 ml per 355 ml drink / 296 ml per 592 ml drink / 473 ml per 946 ml drink
Cold Plate	50% more ice usage per day
Package Ice	Weight per bag x number of bags sold per day

Global Product Guide

About Ice-O-Matic

Located in Denver, Colorado, Ice-O-Matic® manufactures a wide range of commercial ice making products including cube ice makers, flaked ice makers, storage bins, dispensers and water filters. Since 1952, we have been developing new technologies and programs, such as the introduction of AgION™ Antimicrobial Compound in our ICE Series cube icemakers, which have resulted in the creation of products that are more efficient for business and safer for the environment.

B120
STORAGE
1,142 lbs. (519 kg) of ice
DIMENSIONS (W x D x H)
48 x 34 x 54 (in.)
1,219 x 864 x 1,372 (mm)

B150
STORAGE
1,807 lbs. (821 kg) of ice
DIMENSIONS (W x D x H)
60 x 34 x 54 (in.)
1,524 x 864 x 1,372 (mm)

B170
STORAGE
1,807 lbs. (821 kg) of ice
DIMENSIONS (W x D x H)
60 x 34 x 66 (in.)
1,524 x 864 x 1,676 (mm)

WATER FILTRATION

IFQ2 SYSTEM
Dual Cartridge with a Quick Twist Disconnect
ICE MAKING CAPACITY
Over 1,000 lbs. (454 kg)
DIMENSIONS (H x W x D)
16 x 10 x 6 (in.)
406 x 254 x 152 (mm)

IFQ1 SYSTEM
Single Cartridge with a Quick Twist Disconnect
ICE MAKING CAPACITY
Up to 1,000 lbs. (454 kg)
DIMENSIONS (H x W x D)
15 x 6 x 4 (in.)
381 x 152 x 102 (mm)

IF4C AND IF18C SYSTEMS

Filter supplied with 1/4" or 3/8" (6 or 8 mm) compression
ICE MAKING CAPACITY
Up to 600 lbs. (272 kg)
DIMENSIONS (H x W x D)
2.5" (64mm) diameter, 11" (279 mm) length
Ideal for limited-space and undercounter applications
