

Infant Seat Kradle KB115

Build loyalty among your patrons by providing accommodations for even your youngest guests. Our Infant Seat Kradle safely holds an infant carrier at table height. The unique design reduces potential liability by eliminating the unsafe act of balancing an infant carrier on an upside-down high chair. This model features tubular steel legs with reinforced cables for strength and durability and easily folds to compact size for quick storage.

Product Details:

- Safety strap to secure the infant carrier to the kradle
- Compact fold up design for easy storage and space savings
- Removable mesh netting can be machine washed and reinstalled

ASTM F404-18 does not apply to this product

Safe and easy operation in three steps.
