| LOW PROFLE MODEL ONLY $16.55^{\prime \prime} 42 \mathrm{~cm}$ H) HGH |  | Designed for operators who kow thatice is scritial tot their diagnostics continually monitor itself for reliable ice productionImprovements in cleanability and programmability make your ce machine easy to own and less expensive to operate. Space-Saving Design - Measures only $16.5^{\prime \prime}$ high$(42 \mathrm{~cm})$ and $30^{\prime \prime}$ wide $(76.20 \mathrm{~cm})$ allowing it to fit on top of dispensers when a low ceiling is an issue.$\qquad$ Programmable Ice Production program your ice machine to be off at certain times of the day to save money with fluctuating electrical rates. Also programming. daily ice production volume and night time asy access. Removable water-trough, distribution to tout for and sensing probes for fast and efficient cleaning. Select Intelligent Diagnostics - Provide 24 hour preventative maintenanceoperation.$\qquad$ allows for reliable operation in challenging water conditions and |  |  |
