

CS1515HD

A truly HEAVY DUTY clamshell griddle

Engineered for those operators who need a clamshell griddle built to take the demands of high production and excessive abuse. Whether for perfectly grilled tortilla wraps, sandwiches or other quick grilled snacks, these griddles do the job where others fail. The heating elements are not simply attached to the back of a spreader plate, but are cast into solid aluminum blocks resulting in far longer life expectancy and even heat distribution across the contact surfaces. In addition, the handle assembly and lifting mechanism is perfectly balanced and is made of heavy gauge steel with the finest springs available for the job. The CS1515HD grill plates are made of polished aluminum 15" x 15" x 3/8" (381x381x10mm). The exterior cabinet is type 302 stainless steel.

ON/OFF Switch	Yes	Electrical Data 120v/60hz 1700w/14.17amps  240v/60hz 1700w/7.08amps
Automatic Timer	No	
Adjustable Thickness	No	
Temperature Control	Yes	Shipping Weight's 65 lbs. / 29 kgs.
Maximum Heat	0-425°F
