standard features

REFRIGERATION SYSTEM

- Two independent, self contained refrigeration systems; CFC free, environmentally friendly and factory balanced.
- R134A refrigerator refrigerant - R404A freezer refrigerant.
- High capacity, factory balanced system that maintains 33°F to 38°F (.5°C to 3.3°C) in the top refrigerator section and -10°F (-23.3°C) in the bottom freezer section.
- State of the art, electronically commutated evaporator and condenser fan motors. ECM motors operate at higher peak efficiencies and move a more consistent volume of air which produces less heat, reduces energy consumption and provides greater motor reliability.
- Top mounted refrigeration system with evaporator positioned out of food zone to maximize capacity.
- Freezer features automatic defrost system, time-initiated, time-terminated.
- Automatic evaporator fan motor delay during defrost cycle.

CABINET CONSTRUCTION

- Insulation - entire cabinet structure and solid door are foamed-in-place using Ecomate. A high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- 5" (127 mm) diameter plate castors - locks provided on front set.

DOORS

- Lifetime guaranteed bolt style door locks standard.
- Lifetime guaranteed heavy duty all metal working door handles.
