

### CONTENTS

- 5 Qt food mill
- Handle with attached blade
- 5 interchangeable graters
  - Round perforations: 2mm, 3mm, 4mm or 8mm
  - Rectangular perforation: 3 x 8.5mm

### SAFETY

**CAUTION:** Be careful when handling, operating, and cleaning the food mill. Keep hands clear of blade when in use.

### OPERATION

*Wash before first use.*

1. Place food mill on a container to collect the puree.
2. Place desired food into the mill.
3. Turn the food mill handle to process the food through the grater and into the container.

### CLEANING

1. Disassemble the food mill.
2. Wash all food mill components in warm water with a mild soap solution. Avoid using abrasives.
3. Make sure components are completely dry before reassembling.

### DISASSEMBLY AND ASSEMBLY

1. **Remove handle with attached blade**  
Press down simultaneously on the hooked sides and rotate handle away from underneath the hooks. Lift out the handle with turning blade.
2. **Remove grater from mill**  
Carefully remove grater by flipping over mill on a clean surface. Grater will fall out.
3. **Insert grater into mill**  
Place desired grater, dome side up, in the bottom of the mill. Grater will sit on the bottom rim.
4. **Attach turning handle to grater**  
Carefully insert the peg of the turning handle into the center hole of the grater.
5. **Attach turning handle to hook**  
Line up the notches underneath the hooks in the interior of the mill's bowl. Press down simultaneously on the notched sides.
